

CELEBRATING HIS

Ressurrection

Spring 2023

We recently had this question pop up: **What would happen if we didn't have ministries in Canada focused on fighting for our future?** Honestly, we can't imagine the state our nation would be in without faithful organizations mobilizing prayer, raising awareness on critical issues of concern and guiding people to meaningful action. **This is one of the reasons we are so committed to what we do.**

FILLING A GAP IN OUR NATION

When we feature stories like the 38-week abortion in Montreal (this past February), Canada's relationship with international agencies (like the W.E.F) or insights from people like the Hon. Stockwell Day on domestic security, we often hear viewers say, *"We don't know where else we would go to get this Canadian based information."* **God has called us to stand in the gap for our nation – bringing this type of awareness to Canadians and working to inspire action.**

The recent show we produced on late-term abortion was watched by many pastors who then relayed the information to their congregations -- all because they were made aware through the show! **Many contacted us to share the impact this troubling story had on them.** We are honoured to raise this kind of awareness because it is the starting point for change.

Every ministry has a vital role in our nation, and we are determined to stay faithful to ours. **Because of your support,** we can consistently speak to issues for our nation, mobilize strategic prayer, contend for revival through our events, minister to hundreds of people each month over the phones (many who are shut-ins) and work strategically behind the scenes. **Thank you for helping us keep at it.**

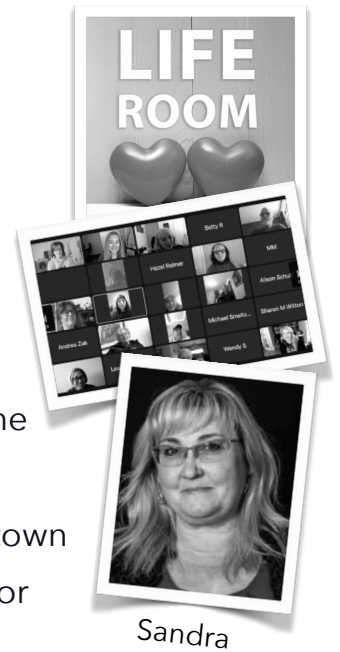

Red Friday Prayer Teams
& Faytene Filming

See the next page, as well as our "testimonies & photos" page, for a quick snapshot of what your giving accomplished these past months and what's around the bend!

Because of your giving, the following has been made possible these past months:

- ✓ Filming, producing and airing **shows on important topics** such as medical assistance in dying, foreign interference in our elections, fighting food insecurity and homelessness, civil liberties, late-term abortion, reconciliation, revival and more
- ✓ Keeping the Life Room strong (**24-7 prayer for the unborn**)
- ✓ **Hiring a new Operations Manager**, Sandra Gullacher, to run the Life Room
- ✓ Mobilizing **more than 200 prayer teams** (Red Friday) to go to town halls, city halls, the legislative assembly and Parliament to pray for our nation
- ✓ Organizing and hosting the **4th annual national online communion service**, with several national leaders participating and special guest Lou Engle
- ✓ Organizing the **Canadian Prophetic Council Leadership Summit** (for late April)
- ✓ Continuing work on the ministry **property development project**

Sandra

In addition to the above, I (Faytene) will be doing some extra travelling this spring to speak, hosting four tables at the National Prayer Breakfast, imparting to the next generation Christian leaders at Parliament and attending some important leadership meetings to strategize for national transformation. I hope to see some of you at these stops.

We write these letters to update you and let you know **your support is making a real difference**. Thank you for doing what you do as a supporter of this work —*all of this* is credited to your heavenly account.

We pray for heaven's abundant blessings on you and your loved ones!

God bless you, and God bless Canada,
